But I guess after all the other is a different word.

Now West -

Dear Mr. Eckstrom

after posting my letter this morning, this
 struck me -

Umbra	zook s	Kuo -	"up meadows"
	sick) has	-	(meadows along its course)
	me		
	zook os	Kwel -	a name that comes
			several times in U.S.
			& Maine & means
			in all cases <u>meadows</u>

Since I think it likely the root zook is equivalent
 is ~~the~~ ^a not meaning meadowland & these words are
 all identical in their stem root, differing in
 prefix which is unity, as usual, attenuated. Thus

mezook or mesk means grass or bushes -
 (that kind of meadow grass). ~~It may be that~~
~~as b = p = m interchangeably that Umbra =~~
~~Ummma or Ummma like Umbra or Umma~~

This I will test out fully by other words containing
meadows.

This is the way to get 'em.

I wouldn't be surprised if some thing good underlies
Blackman's Book & Stream. Dry Clara - Maugh
 full spot it mistakes as an early center, but I
 rather of its origin - much familiarized of course.
 Also much fun by her especially on Heat & Mrs G. J.D.
 also deal with Stream?

no-Blackman Bros.
 had a mill there!
