

447 MARLBOROUGH ST.

Feb. 6/39

Dear Mrs. Seward

I see Nequambeay was
given at oldtown as "Lots of undergrowth,"
I take it Nequest is same. Not bad
shape for the rockings.

Ne, withgo has Nequambeay Falls, "up
& down motion of the water.

The matla~~ass~~^{er} from I have means "not
far off, near by". Taking matla as is

Madagascar etc, a coming out matter,

it might connect with your sleep
runnel being close to shore. - not

that this looks too good. It might be

The way the Mat. streams follows along

close to the river, Matla^{er} is from

Natla's bit. There are lots of these Matla's,
clear into Gujonia & within the same idea.

Hope you get home right side up,
my best regards to all your uncles
Stems
