Dear Mrs. Eckstrom,

I needn't say I was glad to see you, though she waint know of it. Your call started me going a bit on old cases, Had done little lately. An unexpected sidelight that turned up complicated monkey on more than one. Connecticut took shape, at least, & Ripogenus. Am just through with Croq, 446 pp, rather a job. Got a vocab. of 41-4300 titles.

About passip-, 7 or 6 instances, mostly they are simple, later I will take them up.

Your warning about my Heavie stuff is quite in order, but it was only students material. I do scan about everything, Indian or white. Am gaining a little on the language,
