

in vocabulary, but I am going to send
you this last material, you don't have
to use it, can keep or burn it, I've got a
regular copy in a book. What I expect to
send is the indexing slips on tapes, bad for
reference but you might care to take off
selections, as off my other miss. sheet.
Used in a dictionary way the tapes would
want to be cut up & pinned on a wall
or viewing board etc.

About the Raskis etc. I don't think
they will get lost, & we don't trust
the good lord some anyway. I want
to get up to Lincoln before long, & will
look in. The Bangor boat looks my
sort of travel.

The E'Brien sheet is naturally rough,
though as good for name work. What
book from Aubrey is like pearls in it.
You say it was better than Raskis
has come back to me, he was a scholar.
Somewhat bungled in the copy from
copying I am
sincerely yours

W.B. Cabot

shall try to get Aubrey photod., & think of
having it sent to you, ^{first} for a visit.
