

as to medically, and I paid eyes.
 I meant by that simply to prescribe the
 medicine, such as might need. There would
 be many that would not actually need medicine.
 My eye sight became impaired after
 an epidemic of dysentery. I was suffering from
 the same disease and had rheumatism
 following it. It was in the hospital
 since I have been in the service of
 the state there. When I came there my
 vision was as good as any body's
 in the world. The effect of the disease
 was to destroy my right eye. I consulted
 an oculist in Boston as to its cause and
 was under his care. He ascribed it to
~~that~~ entirely. The officers and attendants
 there are liable to be injured at any
 time. Some are permanently injured at times.
 Several have been stunned so that they
 didn't know anything for several hours.
 There was a Mr. Adams who was
 badly injured, and 2 or 3 others whose
 names I do not now remember. One
 I remember was in a oblivious state for
 several hours.

Q. Is it or not absolutely indisputable
