Dear Mrs. DeKosters,

Thanks for your
Pauyas paper. You can certainly do it.
How you could lay hands on all
that went to the showing I don't see.
It's as well for me that I have let
the historical side alone.

I peck around, off & on, at their
name & that, probably gain a little
as time goes on, on the obstinates.
In a useful writing - instance,
there is an Opaione river just here,
& the whites here seem to have called
northern Indians Aberginians; may
have called other Indians that too - suggests
partin Inclusion, Abnatei, Abajin, in
Ojibway, were Lodgepoles, Odd. A wide
collection of words for rapids, currents
does seem to point somewhere, in
our Ripo - Rashes has ari for at
cheq., & gives 2 meanings in arep -
I think I have my bearings.
A note from S.E. the other day.
