

natural enough when you come to think of it. I am
just compiling the - Acadie paper (No 3-1)-
it is very long - has nearly 100 names, but that is
what I got for trying to follow out a single root.
The blank names number about 50 - the -pak,
-tagat names about 60, & a preliminary list of
-tak - tagak (with) names makes about the same.
The - Acadie seems the largest series.

I have not yet heard from the Rev. at Bequasket
N.H. (Milford). The all things of fact that being an
independent name - added to the Acacia, or any other
nearby, is the fact that it is so near the other
Bequasket - and so far as I find, the Indians
did not find the same name in places so near
together. Hence I think it was a found a
transference - as we doubt it is when added
to the white mts.

About Mrs. Fox's measures on coast - I have that
report - See. Survey, pub. 1907. I have at the least
doubt that the Indians named some places for the
